SUMMARY

See below for detail and source.

- In Gaza, ongoing hostilities, displacement, and restrictions on essential supplies continued to constrain humanitarian operations; UNRWA reported 73,231 Palestinians killed and 173,686 injured since 7 October 2023 as of 12 July.
- Russia's 19 July missile barrage on Kyiv and other Ukrainian cities caused civilian casualties, while Russian state media described claimed strikes on Ukrainian military-industrial and port facilities.
- In Sudan, the United Nations warned that fighting, drone attacks, and cholera continued to harm civilians, while Myanmar's humanitarian crisis remained marked by conflict, displacement, and severe funding needs.
- Iran–United States hostilities and the struggle over the Strait of Hormuz intensified regional risks; reporting also indicated continuing Lebanon-related diplomacy amid the renewed Israel–Hezbollah war.

MIDDLE EAST

Gaza Strip

Humanitarian conditions in Gaza remained severely constrained by continued military activity, access restrictions, and further displacement. OCHA reported 40 Palestinians killed and 127 injured between 8 and 15 July, bringing the reported toll since the 10 October 2025 ceasefire announcement to 1,123 fatalities and 3,616 injuries as of 15 July; OCHA also recorded disruption to assistance in sites near the “Yellow Line.” [OCHA oPt](#) *(UN/humanitarian)*

UNRWA reported that, according to the Gaza Ministry of Health and the Health Cluster, 73,231 Palestinians had been killed and 173,686 injured in Gaza between 7 October 2023 and 12 July 2026. It also reported 116 active collective emergency shelters hosting 76,000 displaced people and continuing restrictions on generators, fuel, and spare parts needed for basic services. [UNRWA](#) *(UN agency)*

Al Jazeera reported that Israeli officials had renewed discussion of establishing three Nahal outposts in northern Gaza; the article framed this in the context of broader concern about settlement, displacement, and obstruction of recovery. These are reported political and analytical claims rather than an independently adjudicated legal finding. [Al Jazeera](#) *(Qatari/intl)*

West Bank

UNRWA reported that 1,111 Palestinians, including at least 243 children, had been killed in the occupied West Bank, including East Jerusalem, between 7 October 2023 and 13 July 2026. OCHA said settler attacks accounted for 55 per cent of Palestinian injuries recorded in the West Bank in 2026 and identified recurrent attacks and related access restrictions as drivers of displacement. [UNRWA](#) *(UN agency)*; [OCHA oPt](#) *(UN/humanitarian)*

The Palestinian Presidency, through WAFA, warned of an escalation in settler attacks across the Hebron, Nablus, and Ramallah governorates, alleging damage to homes and a mosque, assaults, property destruction, livestock theft, and olive-tree burning. These allegations are attributed to the Palestinian official source. [WAFA](#) *(Palestinian official)*

Iran–United States and regional escalation

On 19 July, Reuters reported that the United States had completed an eighth consecutive night of attacks on Iran after the collapse of an interim ceasefire arrangement, while the dispute over shipping in the Strait of Hormuz deepened. Reuters reported that U.S. Central Command described the strikes as targeting Iranian coastal surveillance, air-defence, and maritime capabilities, while Iranian state television reported a drone attack on U.S. facilities in Kuwait. [Reuters](#) (*Western mainstream*)

Iranian authorities said 50 people had been killed and 517 wounded in recent U.S. strikes, according to Associated Press reporting carried by PBS NewsHour. The same account reported the reactivation of air defences in Kuwait, Jordan, and Bahrain, and a sharp fall in Strait of Hormuz transits. This casualty figure is an Iranian-authority report and has not been independently verified in this report. [PBS NewsHour / AP](#) (*Western mainstream*)

Lebanon

Lebanon remained connected to the regional escalation. Reuters reported a renewed war between Israel and Hezbollah and said Lebanese President Joseph Aoun was discussing a U.S.-backed framework concerning Hezbollah's disarmament and Israel's withdrawal from southern Lebanon. The report did not provide a new independently verified casualty total for this update. [Reuters](#) (*Western mainstream*)

EASTERN EUROPE

Russia–Ukraine Conflict

Russia launched a large missile attack on Kyiv and other Ukrainian cities on 19 July. Reuters reported, citing Ukrainian officials, at least one death and 16 injuries in Kyiv, four deaths and 19 injuries near Kharkiv, and at least two deaths and 14 injuries in Zaporizhzhia; its report described seven deaths across the three locations at publication. [Reuters](#) (*Western mainstream*)

OHCHR verified 279 civilian deaths and 1,947 injuries in territory controlled by the Government of Ukraine during June 2026. Its June update recorded 14 deaths and 43 injuries in territory occupied by the Russian Federation, while cautioning that limited access and information meant the actual number could be higher. [OHCHR / HRMMU Ukraine](#) (*UN agency*)

Russian state broadcaster RT said Russia had struck five Ukrainian military-industrial enterprises in Kyiv and a seaport used for delivery and storage of military cargo. This is a Russian state-media account of the stated target set and is presented as a Russian claim.

[RT](#) (*Russian state*)

Russian state news agency TASS, citing the Russian Defence Ministry and regional officials, reported one civilian killed and four injured in Yaroslavl Region during a Ukrainian drone attack on 15–16 July. This is a Russian-government claim. [TASS](#) (*Russian state*)

AFRICA

Sudan

Sudan's conflict continued to create acute civilian protection and public-health risks. A United Nations spokesperson, citing OCHA and WHO, reported multiple drone attacks across Darfur and Kordofan; WHO had recorded 1,330 confirmed cholera cases and 114 confirmed deaths as of 7 July. [UNIFEED / OCHA / WHO](#) (*UN/humanitarian*)

The Security Council had warned of reported RSF military reinforcements around El Obeid, the risk of mass atrocities, escalating violence in Kordofan, and the need for civilian protection and unhindered humanitarian access. [UN Security Council](#) (*UN agency*) Reuters reported that OHCHR had identified at least 880 civilians killed by drone strikes between January and April 2026, with drones accounting for 80 per cent of conflict-related civilian deaths in that period. [Reuters](#) (*Western mainstream*)

ASIA

Myanmar

Myanmar remained one of the world's most severe humanitarian crises, according to OCHA, with more than 16 million people in need and nearly 3.8 million estimated displaced. OCHA said that recent hostilities in Magway alone had displaced more than 100,000 people and that only 43 per cent of the US\$890 million 2026 response requirement had been received. [OCHA Myanmar](#) (*UN/humanitarian*)

Mizzima reported heavy fighting south of Myawaddy between junta forces and an alliance led by the Karen National Union/Karen National Liberation Army, as well as two civilian

deaths reportedly caused by junta airstrikes in Loikaw and Hpasaung. These battlefield and casualty claims are attributed to the Myanmar opposition outlet and its named sources. [Mizzima](#) (*Myanmar opposition*)

STATISTICS

Table 1 — Casualties (Killed / Wounded)

Conflict/ Crisis	Key Statistic	Source	Killed	Wounded
Gaza	Since 7 Oct 2023, to 12 Jul 2026	UNRWA / Gaza MoH (UN agency)	73,231	173,686
	Since Oct 2025 ceasefire announcement, to 8 Jul 2026	UNRWA / Gaza MoH (UN agency)	1,084	3,491
West Bank	Since 7 Oct 2023, to 13 Jul 2026	UNRWA / OCHA (UN agency)	1,111	—
Sudan	Since Apr 2023 (range of cited estimates; scopes and methods differ)	ACLED (Western nuanced)	61,000–150,000†	—
Ukraine	Civilians, Government-controlled territory, Jun 2026	OHCHR / HRMMU Ukraine (UN agency)	279	1,947
	Civilians, Russian-occupied territory	OHCHR / HRMMU Ukraine (UN agency)	Unverified*	Unverified*
Russia		TASS / Russian	1	4

Conflict/ Crisis	Key Statistic	Source	Killed	Wounded
	Civilians from Ukrainian strikes, 15–16 Jul (RF government claim)	officials (<i>Russian state</i>)		

* OHCHR access is denied to Russian-occupied areas of Ukraine; figures for civilians in occupied territory cannot be independently verified. The vast majority (96%) of verified civilian casualties occur in Government-controlled areas.

† Sudan estimates are not directly comparable: ACLED notes a 61,000 all-cause death estimate for Khartoum State during the first 14 months of war, while a U.S. Special Envoy cited estimates of up to 150,000 people killed nationally. Both are incomplete estimates with different scope and methodology.

Table 2 — Numbers (non-casualty figures)

Conflict/ Crisis	Key Statistic	Figure	Source
Gaza	Active UNRWA collective emergency shelters, to 12 Jul 2026	116 shelters hosting 76,000 displaced people	UNRWA (<i>UN agency</i>)
	Households accessing less than six litres of drinking water per person per day	63%	OCHA oPt (<i>UN/humanitarian</i>)
Sudan	Confirmed cholera cases, as of 7 Jul 2026	1,330	UNICEF / WHO (<i>UN/humanitarian</i>)
Myanmar	People in need / estimated displaced people	More than 16 million / nearly 3.8 million	OCHA Myanmar (<i>UN/humanitarian</i>)
Iran– United States	Strait of Hormuz transits: Saturday / Friday, against pre-war daily average	8 / 3, versus nearly 140	PBS NewsHour / AP (<i>Western mainstream</i>)

This report avoids unexplained qualifiers that cast doubt on an event without explaining who challenges the account, why they do so, and what source or location context is relevant. Claims are attributed inline to their source, and source-origin tags are included next to quoted or cited sources wherever practical.
