IPAN is a network of community and church groups, trade unions, peace and anti-war organisations, and concerned individuals from across Australia, united by our support for an independent Australian foreign policy based on peaceful resolution of international conflicts.

Responding to this common goal, groups around Australia in September 2012 launched the Independent and Peaceful Australia Network (IPAN).

The network welcomes all national and local groups that support our aims, and is working to broaden the involvement of as many organisations and individuals as possible.
